

Application No.: 10/786486

Case No.: 58196US007

REMARKS

With respect to the drawing objection, claim 1 has been amended to delete the term "spaced." The projections would comprise the upstanding hook element 14 in Figures 4-5, which are "spaced" from each other. Claim 1 now states that the head portions are spaced to avoid any confusion with the interpretation of the language in view of the drawing.

Further with respect to the objections to the specification the language of claim 1 has been amended. The term "film base" has been changed to "base film layer" and the term "upper and lower face" has been changed to "upper and lower major surfaces." This should address this stated concern.

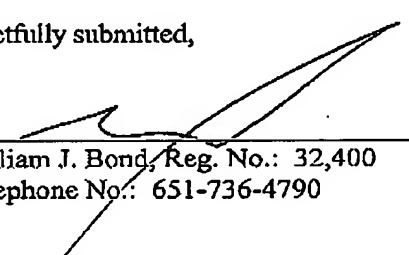

In view of the above, it is submitted that the application is in condition for allowance. Reconsideration of the application is requested.

Respectfully submitted,

Date

Sept. 15, 2005
